

Object

IAuthenticator

AppModelUserManager

```
graph BT; AppModelUserManager --> Object; AppModelUserManager --> IAuthenticator;
```

The diagram illustrates a class hierarchy. At the top, there are two boxes: 'Object' on the left and 'IAuthenticator' on the right. Below these, centered, is a box labeled 'AppModelUserManager'. Two arrows originate from the top of the 'AppModelUserManager' box and point upwards to the bottom of the 'Object' and 'IAuthenticator' boxes, indicating that 'AppModelUserManager' inherits from both 'Object' and 'IAuthenticator'.
